

Name:.....

Class: VI

World Population Day

How do you feel on seeing this picture? Write in the box below.

1. Find out the highest populated and lowest populated country in the world. Mark it in the world map, write the climatic conditions of the two places and the continents they are located in.

Climatic Conditions/Continent

Highest populated

Lowest populated

2. What is the relationship between climate of a place and its population?

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

3. Find out the population of the state you live in? Discuss with your parents the changes they have observed in their city over the last many years and write it below.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

4. Find out the birth place of your father/mother. Trace their journey from the birthplace to the work place and present it on a map.

5. What are the reasons for his/her travel?
